

CPGC HEAT POLICY

In considering whether to proceed with or cancel the competition of the day, the “Competition Committee” must:

1. Review the latest weather information via www.bom.vic.gov.au for Frankston Ballam Park for temperatures
2. Review the format of the day’s competition
3. Be guided by the governing bodies’ advice on playing in extreme weather conditions
4. Consider the impact on members and the Club where the day’s competition is part of a Board Event.

After considering all the above points the “Committee” may cancel a competition, revise the format of the competition, or postpone a Board Event and play a Club Competition round, as the committee has a duty of care for all members.

Whether a competition continues or not, all members should be mindful of their own health when playing in such extreme weather conditions.

A decision once made must be conveyed to the Pro Shop.

A. Men

(a) If the BOM at Frankston Ballam Park’s temperature forecast on the night prior is 36 degrees and less than 40 degrees, the competition committee may meet prior to the competition commencing and decide whether the competition shall proceed, and/or in which format, e.g. 9 holes only, with a minimum of 16 players required to run a competition.

(b) If the BOM at Frankston Ballam Park’s temperature forecast is 40 Degrees and above the competition will prima facie be cancelled. Should the forecast change overnight the Competition Committee can reconsider the decision to cancel.

B. Ladies

(a) If the BOM at Frankston Ballam Park’s temperature forecast on the night prior is 35 degrees and less than 40 degrees, the competition will be 9 holes only, with a minimum of 16 players required. However, should the forecast change overnight the Competition Committee may meet prior to the day’s competition commencing and reconsider the decision to limit the competition to 9 holes.

(b) If the BOM at Frankston Ballam Park’s temperature forecast is 40 Degrees and above the competition will be cancelled.
